

Experience in Porto

by Sara Manceras

When I first realised I had been selected for a trip to Portugal where I'd be sharing a project with people from around five different countries in Europe, I was amazed and excited.

My first impression of the Portuguese school and district where it was installed was a bit different from what I had expected, but time by time I discovered an amazing place full of nice, caring and open-minded people that I started loving so much.

I found myself in a really different environment, joking, sharing, practicing languages (.....) to be honest, I wish it had never ended!

Apart from that, we learned a lot from the Portuguese way of life, history and manners with our amazingly funny and marvellous host, Leonilde and mates from the school.

Porto is a really beautiful city that I'd like to visit again in the future and who knows, if maybe see my friends again.

To sum up, I have to thank my teachers and the European Union for such an unique and enriching experience that I'll remember for the rest of my life.
